

**INCIDENT MANAGEMENT SITUATION REPORT  
WEDNESDAY AUGUST 18, 2004 – 0530 MDT  
NATIONAL PREPAREDNESS LEVEL 3**

**CURRENT SITUATION:**

Initial attack activity was moderate in the Northwest Area and light elsewhere. Nationally, 199 new fires were reported. Five new large fires were reported, three in the Northwest and one each in the Eastern Great Basin and Northern Rockies Areas. Two large fires were contained, one each in the Northern Rockies and Southern California Areas. Very high to extreme fire indices were reported in Alaska, Arizona, California, Colorado, Idaho, Montana, Nevada, Oregon, Utah, Washington and Wyoming.

Hurricane Charley, Florida. A Presidential Disaster Declaration was issued on 8/13. A Type 1 Incident Management Team (Ferguson) is assigned to provide logistical and resource support. The team will work jointly with the GSA, FEMA, Florida State Emergency Response Team, Army Corp of Engineers, U.S. Air Force and state law enforcement agencies.

**NORTHWEST AREA LARGE FIRES:**

FISCHER, Okanogan-Wenatchee National Forest. A Type 1 Incident Management Team (Anderson) is assigned. This fire is four miles southeast of Leavenworth, WA in grass, brush and timber. The fire was actively backing and flanking south of Blag Mountain into Ollala Canyon. Short runs and group torching were observed in heavier fuel concentrations. Evacuation orders remain in effect for all of Ollala Canyon.

POT PEAK/SISI RIDGE COMPLEX, Okanogan-Wenatchee National Forest. A Washington State Interagency Incident Management Team (Furlong/Gormley) is assigned. This complex, comprised of the Pot Peak, SiSi Ridge and Deep Harbor fires, is 15 miles northwest of Chelan, WA in timber. Thunderstorms over the Deep Harbor resulted in increased fire activity. The other fires were also active with torching, short crown runs and spotting reported. The voluntary evacuation request remains in effect for Domke Lake, Lucerne and Holden Village.

BYBEE COMPLEX, Crater Lake National Park. A Type 2 Incident Management Team (West) is assigned. This complex, comprised of ten fires, is 16 miles northeast of Prospect, OR in timber. Activity on all fires was moderate with isolated torching and ground fire in heavy fuels observed.

DIRTY FACE PEAK, Okanogan-Wenatchee National Forest. A Type 2 Incident Management Team (Larsen) is assigned. This fire is 20 miles northwest of Leavenworth, WA in timber. Fire behavior was low with creeping and smoldering reported. Increase in acreage is due to more accurate mapping.

GRASSY, Fremont National Forest. A Type 2 Incident Management Team (Paul) is assigned. This fire is 20 miles northeast of Lakeview, OR in timber, brush and cheatgrass. Fire activity was moderate with interior torching reported.

MEBEE PASS, Okanogan-Wenatchee National Forest. A Washington State Interagency Incident Management Team (Johnson) is assigned. This complex, comprised of the Timberline, Williams Butte, Fire #758 and Mebee fires, is 30 miles northwest of Winthrop, WA in timber. Very active fire behavior was reported on the Williams Butte with torching, crown runs and some spotting.

FREEZEOUT COMPLEX, Okanogan-Wenatchee National Forest. A Fire Use Management Team (Cook) is assigned. This complex, comprised of the Freezeout, Devil's Creek, Devil's Dome, and Jerry Lakes fires, is 65 miles northeast of Bellingham, WA in timber. The Freezeout is a suppression fire while the others are being managed as Wildland Fire Use (WFU) fires. A joint U.S. Forest Service/British Columbia Forest Service helibase has been established in Manning Park, Canada to support air operations. The Freezeout received precipitation resulting in minimal fire behavior. All other fires in the complex also had low fire activity.

MODOC POINT, Winema National Forest. This fire is 20 miles north of Klamath Falls, OR in grass, juniper and mixed timber. No further information was received.

DOWNEY CREEK, Mt. Baker-Snoqualmie National Forest. This fire is 16 miles northeast of Darrington, WA in timber. Fire behavior was low with creeping observed.

RATTLESNAKE PEAK, Okanogan-Wenatchee National Forest. A Fire Use Management Team (Weldon) is assigned. This lightning-caused Wildland Fire Use (WFU) incident, located 40 miles west of Yakima, WA in timber, is being managed to accomplish resource objectives. Fire activity was moderate.

JIM WHITE RIDGE, Wallowa-Whitman National Forest. A Fire Use Management Team (Hall) will assume command at 1800 PDT; the team will also manage the Hazel 2. This lightning-caused Wildland Fire Use (WFU) incident, located five miles west of Cove, OR in timber, is being managed to accomplish resource objectives. Fire activity was low with backing and creeping observed.

HAZEL 2, Wallowa-Whitman National Forest. A Fire Use Management Team (Hall) will assume command at 1800 PDT. This lightning-caused Wildland Fire Use (WFU) incident, located 21 miles east of La Grande, OR in timber, is being managed to accomplish resource objectives. Fire activity was minimal.

MCMILLAN, North Cascades National Park. This lightning-caused Wildland Fire Use (WFU) incident, located seven miles north of Diablo, WA in timber, is being managed to accomplish resource objectives. Fire behavior was low with backing and smoldering reported.

## ALASKA AREA LARGE FIRES:

CENTRAL COMPLEX, Bureau of Land Management, Upper Yukon Zone. A Type 1 Incident Management Team (Frye) is assigned. This complex, comprised of the Crazy, Bolgen Creek, Rock Creek, Preacher Creek, Middle Birch, Big Bluff and Takoma Bluff fires, is surrounding Central, AK in spruce and hardwoods. Most fires in the complex experienced an increase in fire activity and general perimeter growth due to higher temperatures and low humidity levels. Crown runs, torching and short range spotting were observed.

TAYLOR HIGHWAY COMPLEX, Alaska Division of Forestry, Tok Area Forestry. A Type 2 Incident Management Team (Jandt) is assigned. This complex, comprised of the Billy Creek, Gardiner Creek, Chicken and Porcupine fires, is 35 miles northwest of Tok, AK in black spruce and tundra. Fire activity increased on the Porcupine; running and torching were observed on the northern side of the fire. Burn-out operations were successful on the Gardiner Creek. The southern end of the Chicken continued to advance on both sides of the Taylor Highway.

BOUNDARY, Alaska Division of Forestry, Fairbanks Area Forestry. This fire is 20 miles northeast of Fairbanks, AK in black spruce and tundra. No new information was reported.

## EASTERN GREAT BASIN AREA LARGE FIRES:

NORTH STAR BUTTE, Payette National Forest. A Type 2 Incident Management Team (Whalen) is assigned. This fire is 17 miles northwest of New Meadows, ID in subalpine fir. Fire behavior was low. Road and trail closures remain in effect.

BEAR SPRING, Salmon-Challis National Forest. A Type 2 Incident Management Team (Broyles) is assigned. This fire is 11 miles northwest of North Fork, ID in timber. Fire spread was low due to higher relative humidity levels.

PORTER, Salmon-Challis National Forest. A Fire Use Management Team (Cones) is assigned. This lightning-caused Wildland Fire Use (WFU) incident, located 25 miles northwest of Stanley, ID in timber, is being managed to accomplish resource objectives. Fire activity was minimal due to precipitation. Local forest road closures are in effect.

LINK, Manti-Lasal National Forest. This lightning-caused Wildland Fire Use (WFU) incident, located six miles northwest of Emery, UT in timber, is being managed to accomplish resource objectives. Fire behavior was minimal with creeping and smoldering reported.

BIG CANYON, Bureau of Land Management, Moab Field Office. This fire is 40 miles southeast of Price, UT in timber and chaparral. No new information was reported.

### NORTHERN CALIFORNIA AREA LARGE FIRES:

FRENCH, California Department of Forestry and Fire Protection (CDF), Shasta-Trinity Unit. A CDF Type 1 Incident Command Team (Lutts) is assigned. This fire is 15 miles northwest of Redding, CA in timber. Fire activity was moderate with spotting and torching observed.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
FRENCH	CA	SHU	9,623	30	8/20	2,940	90	240	17	24	5.2M

### NORTHERN ROCKIES AREA LARGE FIRES:

THREE LINKS II, Nez Perce National Forest. This fire is 24 miles east of Lowell, ID in timber. Ground fire was observed on the east and west flanks; approximately 60 percent of the perimeter is active.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD

## OUTLOOK:

**Weather Discussion:** High pressure will be building along the Pacific Northwest coast as a low pressure system moves slowly across Utah. Most thunderstorm activity will extend from Montana and Idaho down to Arizona and New Mexico. High pressure will continue over Alaska.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<b>NORTHWEST AREA</b> Mostly sunny. Chance isolated mountain thunderstorms over and east of the Cascades.	West of the Cascades: Mostly in the 80s except locally into the mid 90s in SW Oregon. Eastside: 80s and 90s.	West of Cascades: 35 to 45% north and 20 to 30% extreme south. Eastside: Mostly 15% to 20%.	West of the Cascades: west to northwest 5 to 15 mph except north to 20 mph on the south Oregon coast. Eastside: Variable 5 to 10 mph.
<b>ALASKA AREA</b> <b>Eastern Interior</b> Partly cloudy and smoky. <b>Southern Alaska</b> Partly cloudy and smoky. Afternoon mainly dry thunderstorms in the southern interior.	<b>Eastern Interior</b> 70s and 80s. <b>Southern Alaska</b> 70s and 80s.	<b>Eastern Interior</b> 25 to 40%. <b>Southern Alaska</b> 25 to 40%.	<b>Eastern Interior</b> Variable 5 to 10 mph. <b>Southern Alaska</b> Southeast to southwest 5 to 15 mph.
<b>EASTERN GREAT BASIN AREA</b> <b>Idaho, Bridger-Teton:</b> Partly cloudy and cool with scattered showers and wet thunderstorms. <b>Utah, Arizona Strip:</b> Mostly cloudy with widely scattered to scattered thunderstorms. Local heavy rain possible.	<b>Idaho, Bridger-Teton:</b> 65 to 79 mountains; 79 to 91 valleys. <b>Utah and Arizona Strip:</b> 63 to 84 northern Utah, 71 to 102 southern Utah and the Arizona Strip, except 102 to 109 Lake Mead area.	<b>Idaho, Bridger-Teton:</b> 18 to 35% west, 28 to 42 east. <b>Utah, Arizona Strip:</b> 25 to 43% northern and eastern Utah, 13 to 35% elsewhere.	<b>Idaho, Bridger-Teton:</b> N 4 to 16 mph. <b>Utah, Arizona Strip:</b> Upslope/upvalley southwest 5 to 15 mph.
<b>NORTHERN ROCKIES AREA</b> Widely scattered showers or wet thunderstorms, mainly to west of Continental Divide. Cold front exiting to south from North Dakota in early morning, with gusty afternoon NW winds behind the front.	Idaho: 82 to 94. West of divide: 77 to 90. East of divide: 71 to 83. North Dakota: 63 to 73. Higher mountains all areas: 62 to 71.	Idaho: 25 to 40%. West of divide: 21 to 36%. East of Divide: 23 to 38%. North Dakota: 32 to 47%.	<b>Idaho and Montana west of Divide:</b> Mainly Slope/ Valley 3 to 8 mph except briefly gusty 23 to 35 mph under thunderstorms. <b>Montana East of divide:</b> northwest to north increasing to 10 to 20 mph. <b>North Dakota-</b> Increasing to northwest 17 to 25 mph, with peak gusts 40 mph.
<b>ROCKY MOUNTAIN AREA</b> Scattered afternoon thunderstorms over Wyoming, Colorado and Kansas.	Highs in the 70s to mid 80s, with 60s and 70s in the mountains.	More than 20% across the RMA.	Easterly 10 to 30 mph over western Kansas into eastern Colorado.
<b>WESTERN GREAT BASIN AREA</b> Partly to mostly sunny, lingering thunderstorms east and central.	Valleys: 84 to 104. Mountains: 74 to 86.	West & south 12 to 22%. Elsewhere: 25 to 40%.	North to west at 5 to 15 mph, localized gusts near storms to 35 mph.

<b>EASTERN AREA</b> Chance of scattered showers and thunderstorms across western half of the Great Lakes ahead of cool front, greatest likelihood over northeast and far southern Minnesota.	65 to 70 NW Minnesota. 70 to 75 rest of the Great Lakes.	42 to 52% outside of scattered rainfall.	Wind becoming northwest at 15 to 25 with higher gusts over western half of the Great Lakes.

### IN COUNTRY NOT SEEN IN DAYLIGHT

Often firefighters arrive on a fire after dark. This is recognized as Watchout Situation #2. Before safely fighting fire in country not seen in daylight, firefighters must be able to answer the following questions:

- Can the resources you are replacing give you a thorough briefing? Identify whom you might get information from. Can you meet up with the departing crew/engine leaders?
- Can you observe the area/use scouts? List ways you could observe the area you need to work.
- Have escape routes and safety zones been thoroughly scouted and marked for night use? Talk about what constitutes an escape route and a safety zone; who would identify them; and in what ways might they be marked.
- Have potential dangers been located; can they be mitigated? What are the dangers associated with Watchout Situation #2? How can they be worked around?
- Reduce the risks by:
  - Posting lookouts.
  - Checking communications.
  - Retreat if you have doubts about your escape routes or safety zones or the situation becomes too complex. Give examples of arriving on a fire after dark and what was done to allow you to fight fire safely in country not seen in daylight.
